

Enrico Puglisi's Bluegill

Submitted by Steve Horgan

Tying Instructions:

Place Mustad 3366 size 1 hook (or similar) in vise.

Use olive 3/0 thread for tying.

Tie portion of EP 3D olive fibers on top of rear portion of hook shank.

Tie portion of EP golden olive fibers under hook shank.

Tie portion of EP 3D olive fibers on top of hook shank.

Tie portion of EP mutton snapper fibers under hook shank.

Tie portion of EP 3D olive fibers on top of hook shank.

Tie portion of EP orange fibers under hook shank.

Mark vertical side bands with black Sharpie.

Tie a half dozen EP sparkle gold fibers on each side of fly at midline that run full length of fly.

Attach ¼ inch red eyes using Zap Gel.

Whip finish and trim fly to shape.

Comments: Try this fly in any body of water containing bluegills and larger predator species. Fly is approximately 3 inches long.

Species caught: largemouth bass
